Payment

Our studio is a volunteer run space that is non-profit and we depend on donations to exist, so donate according to your own budget! Depending on the scale of your project, we can make you an invoice with both ends of the sliding scale that we will discuss & agree together.

TARIFS // SLIDING SCALE

SCREENS/ECRANS (<i>including acetate, emulsion & remover</i>)	15\$ - 30\$
INK/ENCRE	25c - 50c (<i>per pull</i>)
LOCATION STUDIO RENTAL	6\$ - 15\$
LABOUR/PRODUCTION*	15\$ - 20\$ (<i>per hour</i>)

**labour is included in cases where you ask one of our members to print for you!*

**production correspond aux tarif/h dans les cas où vous demandez à un de nos membres d'imprimer pour vous!*

What to expect when silkscreening with Sidetracks

You can expect the coating and burning of screens to take 1 hour and the cleaning up process to take 30 min. The printing time will vary greatly depending on the size/scale of your project. For example printing 50 t-shirts with 1 layer should take about 4 hours to print (if there are no snags!). Please be patient as we are all volunteers and our space is DIY. The process of silk screening is very finicky and there are lots of factors that can cause delays in the process, so be prepared to be flexible with your time frame.

Please send this form and the images* to: **sidetrackscollective@gmail.com**

*The image should be 100% full contrast (i.e. no grays, only black and white!) and min. 600dpi

Feel free to email us or message us on facebook with any questions or concerns!
